

Studying & Practicing The Intellectual Art of Equine Massage Therapy

Reference: Ms. Diane Cassells

June 2008

To Whom It May Concern,

Having tutored Ms. Diane Cassells through her comprehensive Equine Massage Therapy Foundation Course, I found Dianes attitude and passion of the subject a pleasure to work with, and Diane's successful graduation as an Equine Massage Therapist was respectfully and deservedly attained through her continued and dedicated learnings.

Diane has proved to be organized, efficient, competent and professional with a natural rapport to both horses and their owners, both academically and practically.

I have no hesitation in recommending Diane as a professional and responsible equine massage therapist with her abilities to intellectually devise and formulate an effective treatment plan for each individual horse whom she meets with.

In summary, I highly recommend Diane to practice equine massage therapy to a variety of horses, and remain confident that she shall prove to be of a valuable asset to one and all. If you have any questions, please do not hesitate to contact me.

Respectfully yours,

Ms. Paula Chambers N.A.R.E.M.T.(Hons)
